What Makes Winfinity Games Unique

We've enhanced Blackjack with the "Bet Behind" feature and also offer a set of exclusive options for Private Blackjack, which will allow you to implement the Upsel approach and grow VIP traffic

Multipliers of up to 50,000x in Big Bang Roulette, Bonus Buy & Free Bonus, and the Replay feature—these are what make our roulette games unique and keep players coming back

The pace of a Baccarat round is one of the fastest in the industry. The mobile version features multi-table play for an even faster gaming experience.

THE ROLE OF PRIVATE HUB

Within the Private Hub, we provide a dedicated space for VIP players and high rollers to address their sophisticated needs.

The Private Hub increases VIP players lifetime value by improving the main factors that drive their retention. This is achieved through three key pillars: Speed, Personalization, Privacy & Environment Control.

» Speed

Reduced waiting time

Dedicated support team and faster issue resolution

Proactive table monitoring

Personalization

Dedicated Private Hub dealers with premium hosting style

Personalized, non scripted communication

Clear VIP service standards

Option to handle specific players' requests

Privacy

Single player per table

Ability to play at your own pace

Total control over gameplay speed – fast decisions or thoughtful strategy

PRIVATE BLACKJACK

UNIQUE FEATURES

Burn Cards

Player can ask to burn up to 3 cards (face down) from the shoe before initials are dealt.

Specific dealer request

Players can request a specific dealer by indicating their preference.

Specific request

Any requests made by the player that do not impact the outcome of the game are considered special requests.

Shoe/Card change

The player has the option to request a change of the shoe, cards, or dealer at any time, but only after placing a bet.

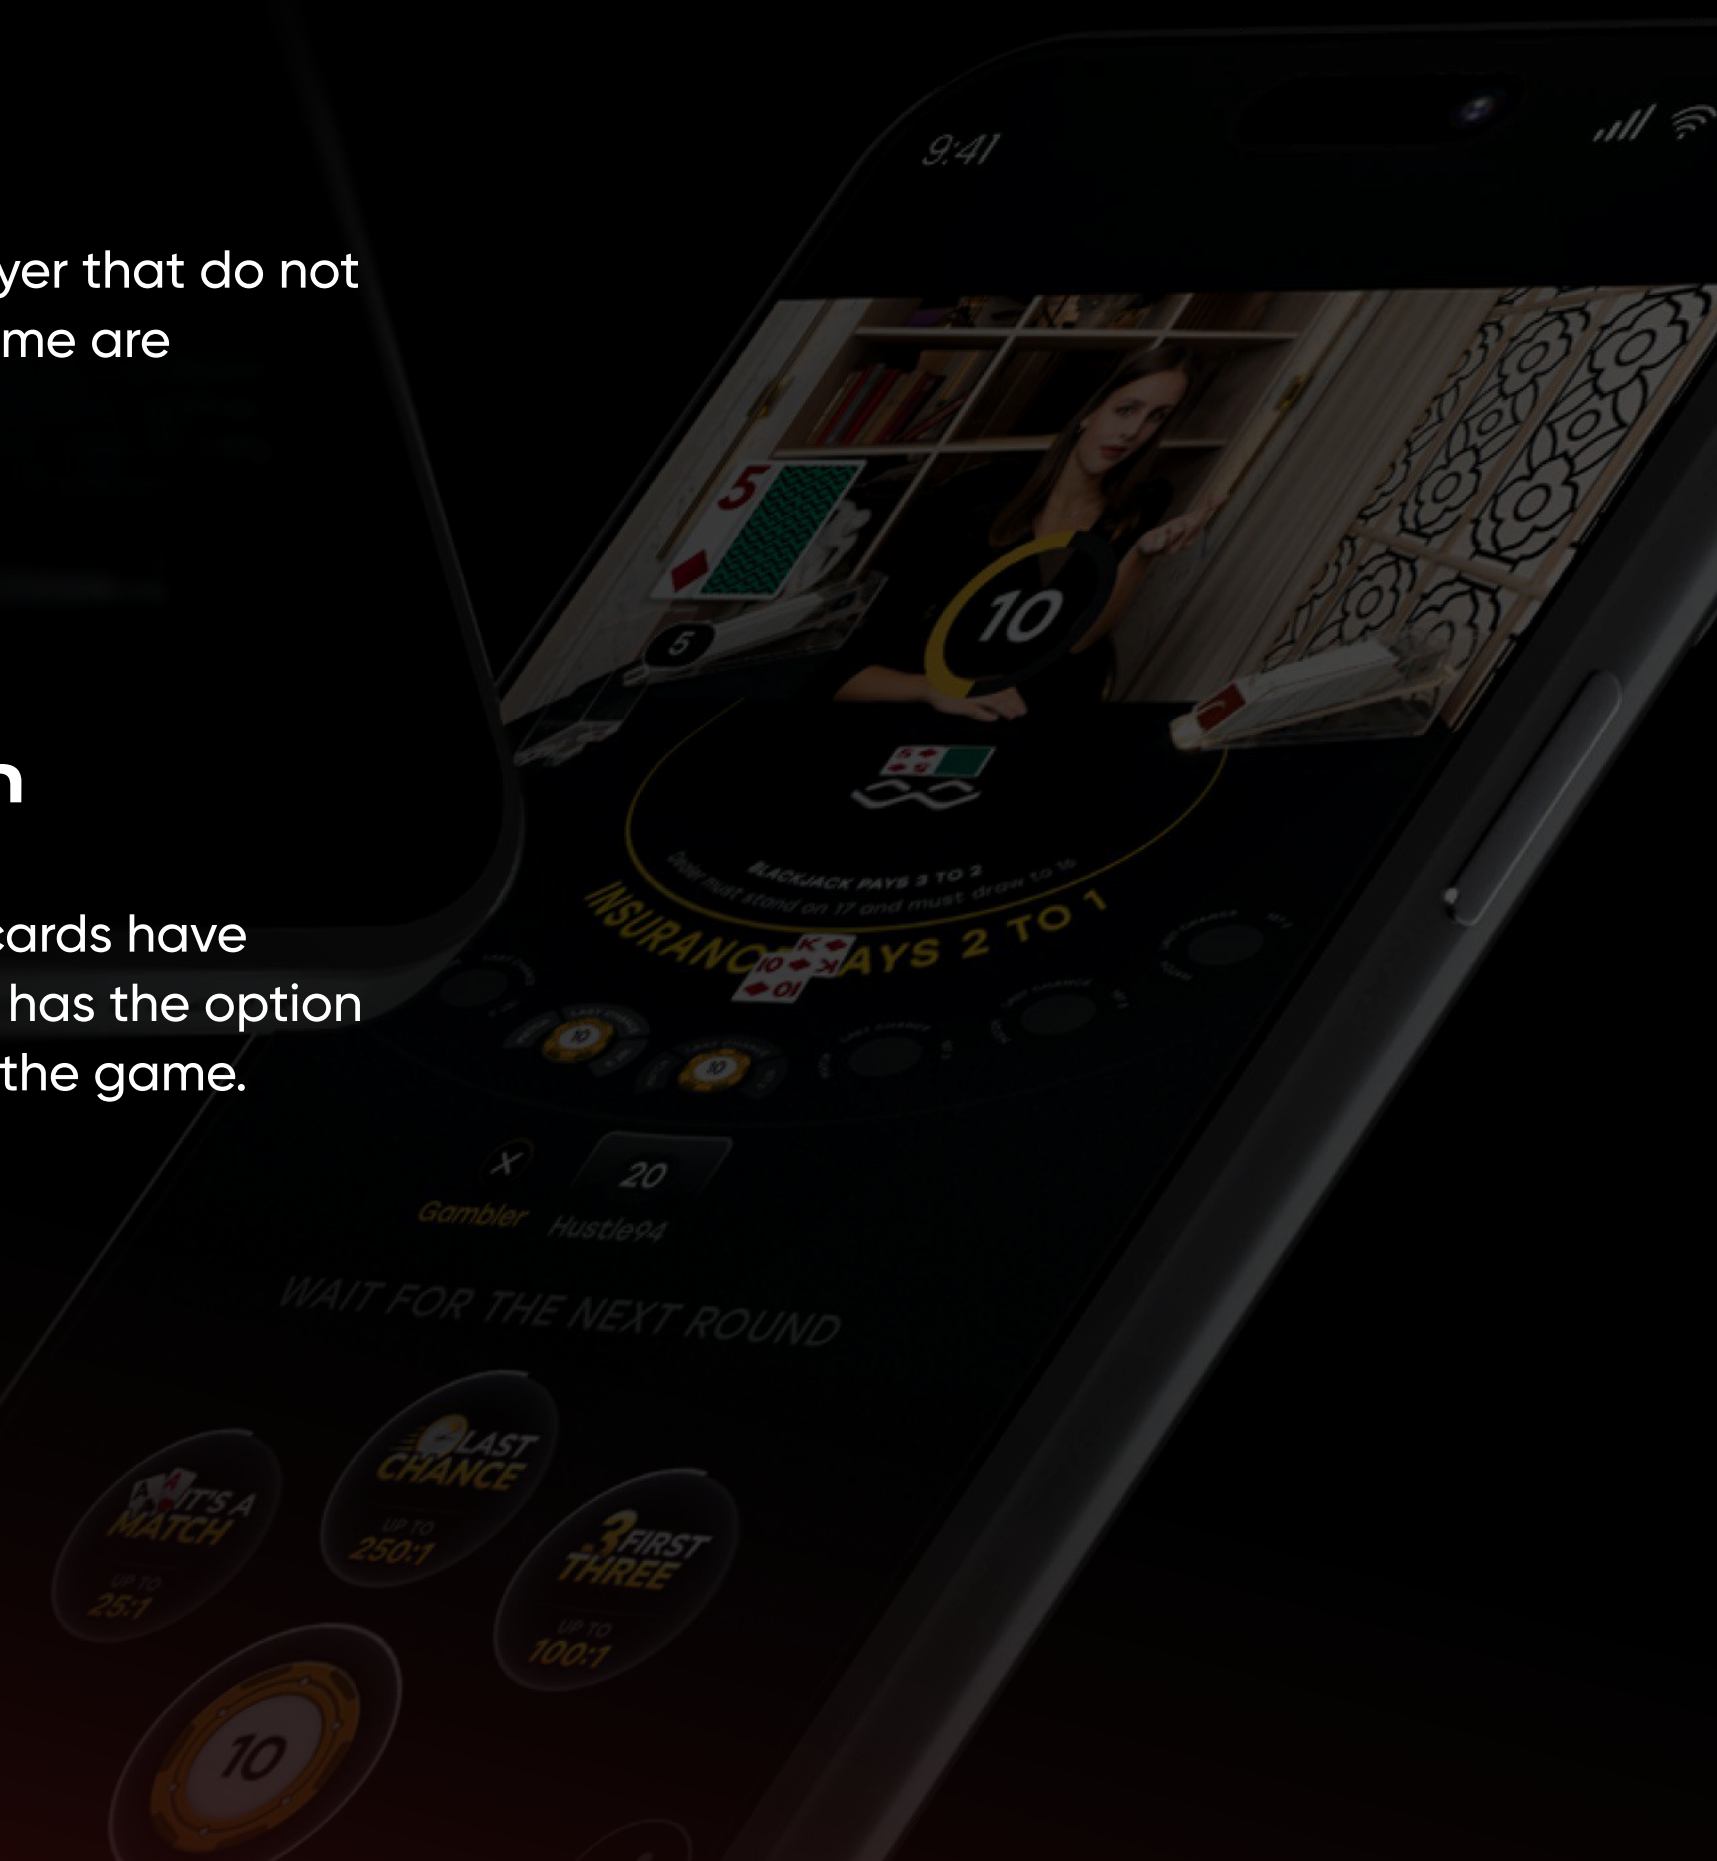

Hold/change dealer

Player can request to retain the same dealer for the next session, within the legal limits.

Game cancellation

If a bet has been placed but cards have not yet been dealt, the player has the option to request the cancellation of the game.

BENEFITS FOR WINFINITY PARTNERS

Exclusive product solutions and customization

Winfinity adapts to the partner's business processes: from limits and the interface to joint promotional campaigns. Custom digital and offline branding: green- and blue-screen games, custom features tailored to the partner's needs, such as logo placement and branding of the studio, tables, cards, and staff uniforms.

Profit growth driven by increased vip traffic and a rise in average ARPU

More than 15% of Winfinity players are VIPs who play at private blackjack tables and roulette tables with multipliers

Fast integration and personalized support

Our four integration teams ensure a launch within 1–2 weeks. Our managers are always available through convenient communication channels and can quickly resolve any issues—from technical to legal.

High standards of safety and transparency

Real-time risk monitoring, AI-driven oversight, and a commitment to responsible gambling ensure reliability and trust

VIP players are players who have exceeded a specified threshold with their cumulative deposit/LT.

RISK MANAGEMENT

ONE BAD DEALER. TOTAL LOSS

Fraud can happen in seconds,
recovery may be impossible.

card manipulation

Dealer gains hidden card information and alters the outcome. Fraudulent winnings are withdrawn before detection.

Roulette interference

The result is deliberately influenced. An accomplice profits and withdraws instantly.

card peeking

A card is exposed before betting closes. An accomplice gains a decisive advantage every round.

WINFINITY. FRAUD STOPS HERE

Three interlocking layers. Every round.
Every game. Every second.

Real-time AI monitoring

Tracks card angles, hand movements, and ball trajectory

Instant alerts on any gameplay anomaly

24/7 automated monitoring

Automated round suspension in seconds

Automatic game stop – no manual action required

Suspicious rounds are frozen instantly

Bets refunded, payouts blocked

Manual payout verification

High-value wins flagged for review

Supervisors verify the full round recording

Payouts released only after clearance

EVERY SPIN. FULLY PROTECTED

⊖ Without protection scenario

Dealer colludes with a player, intentionally influencing the ball's trajectory to land on 17. The player bets €25,000 on 17 for 6 rounds and wins 4 times at 35:1.

Crypto withdrawal: 10 minutes
Fraud detected: 15 minutes

CASINO LOSS: ~€3.5M
A 5-minute delay is all it takes

Ⓜ Winfinity makes the difference

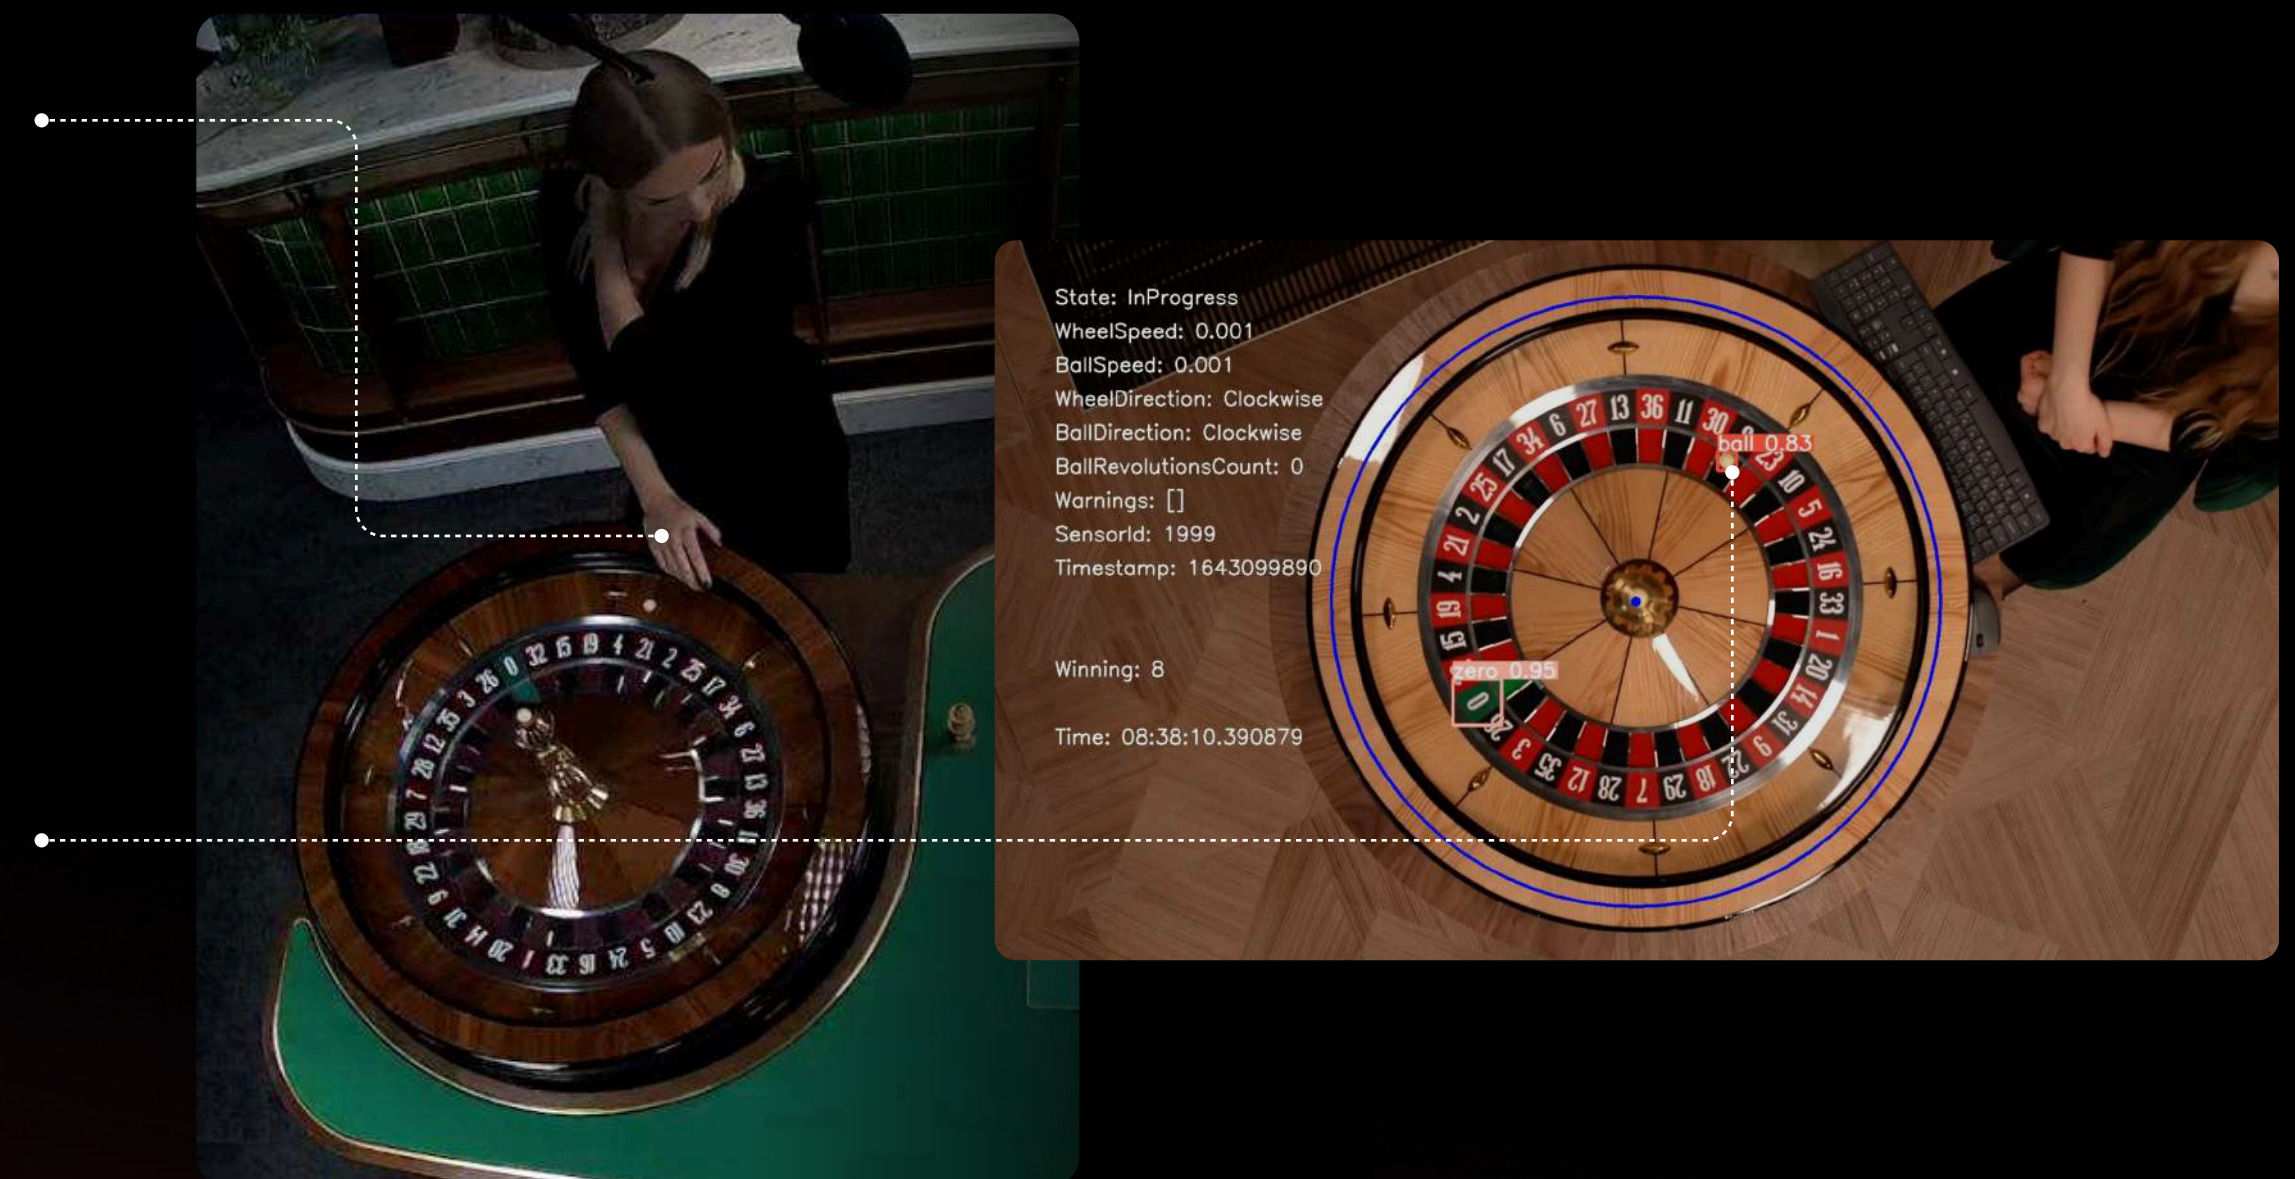

Any unauthorised object entering the protected zone immediately suspends the round

At the first anomaly, the round is frozen and payouts are blocked

High-value wins are automatically held pending security verification

Any unexpected movement triggers an instant alert and security review

AI-powered facial recognition instantly alerts security to unauthorized access

EVERY DEAL. FULLY PROTECTED

⊖ Without protection scenario

During a Baccarat session, a dealer subtly exposes card values during the squeeze. A remote accomplice places €80,000 bets on the correct outcome for 5 consecutive rounds.

Crypto withdrawal: within minutes
Fraud detected: after the session ended

**CASINO LOSS: ~€700K –
ONE STREAM SESSION**
