# THE BAR

**A bar – magical place that draws us together to enjoy and celebrate our lives. Jazz music, cheerful laughter, ice cubes jingling in a glass of whiskey.**

**We combined the interior of a classy bar with a good round of Blackjack or Roulette and produced something your players would definitely enjoy.**

## **WHY BAR?**

As simple as that - many things went digital even entertainment. But we still crave our old rituals like going out to the bar with our friends.

Thus, we decided to build a bar and a live gaming studio right inside it, so your customers can enjoy both no matter what.

# VENICE

**A traditional question  
straightaway – why Venice?  
(Yes, you already know that  
there is a story behind studio  
naming. Well done!)**

**Again, it's us and  
the history of our  
industry.**

**Studio Venice**

The first casino - the Casino di Venezia, was established in 1638 in Venice. With that said, we can reasonably consider Venice as a lullaby of a modern casino we are nowadays used to.

# TAO YUAN

There is a breathtaking story behind the name of our Asian studio, Tao Yuan.

Tao Yuan or the Peach Blossom Land is a fantastic place off the beaten path. According to an ancient tale, a fisherman once sailed into a river in a forest made up entirely of blossoming peach trees. When he reached the river's end, he stumbled upon a

fairytale village. The villagers warmly greeted him and told about this village hidden from other people and evil forces, a land of divine magic and secrecy. But the trick with this place is that once you leave it - you will never find it again.

**We created the same magic atmosphere within our Tao Yuan studio with one crucial difference – whenever you want, you can always come back here.**

## Studio

## Tao Yuan

Our Tao Yuan studio is an ultimate fusion of Asian spirit and refined taste. We carefully selected only the very best interior design elements to achieve that, stepping onto the next level of studio interior design.

## Real, full-length Bonsai trees

We are not afraid of complicated things; on the contrary - we deep-dive into complex projects with a Tiger's courage.

Tao Yuan studio is equipped with handmade, full-length Bonsai trees, each built of 50+ real Bonsai branches.

The creation of every Bonsai tree takes up to **4 months of careful manual work.**

## High-quality oak wood wall

The main studio wall is made out of tiny oak wood laths, with a total extent equal to more than **2,5 km.**

This is a 100% handmade production, requiring more than 300 hours of work.

Tao Yuan studio has eight Baccarat tables for the ultimate gaming experience. Each has its own unique features for players to distinguish one from another.

Besides the science behind the number of tables, we named them with respect to Asian traditions. There is no table under number 4, which is considered unlucky.

## LED light walls

Color plays a significant role in setting the right mood. For a quick ambience change, we equipped the studio walls with the latest trend in LED lighting technologies, capable of changing the color of walls in a couple of seconds. This technology allows extra customization, such as putting on red color during the festive season.

## Unique gaming tables design

The gaming tables are a true masterpiece. Designed with the traditional mythology motives, our tables resemble the top of the Kunlun mountains for a truly heavenly gamer experience.

# SHANGRILA

## Story behind the Shangrila studio name

**In the heart of the towering Himalayas, nestled between snow-capped peaks and lush green valleys, there existed a mystical and hidden place known as Shangrila.**

Legends spoke of this enchanting haven, a sanctuary where time seemed to stand still and the troubles of the world melted away. Only the most fortunate and pure of heart could discover the secret path that led to this earthly paradise.

Close your eyes and picture a serene spot high in the Himalayas. In our Shangrila Baccarat Studio, it's like being there, experiencing the thrill of the game in a place where time seems to stop.

## Studio Shangrila

The studio uses high-quality materials like real wood and slate veneer on the walls, creating a cozy and natural ambiance. We carefully chose decor that brings out the beauty of nature, making every detail fit together perfectly. To add a special touch, we included handmade panels with unique designs, making each visit to the studio a one-of-a-kind experience.

The interior consists of natural materials, and all the rooms are very spacious, with a lot of natural light coming from huge glass windows.

The office lounge corner inspires productivity in people and fosters efficient communication. This cozy area with comfortable plush seating and a modern minimalist design allows Winfinity employees to take a break from focused work to chill and recharge.
